WILDCATS COME BACK FOR WIN  
ON A16

## Part of severed arm mystery solved

BY CHRIS BROOKE  
editor@hclocal.com

Authorities have identified who the severed arm belonged to that washed up from the Kentucky River in Lockport after another grisly find upstream Dec. 6, according to the Henry County Coroner.

Two months after the arm surfaced in Henry County, a man walking along the Kentucky River bank in Jessamine County found a human torso Dec. 6. Henry County Coroner Jimmy Pollard said the state medical examiner's office did a tissue comparison of the two, and

they matched. Investigators have also been able to get a viable fingerprint in order to identify the victim as Goldia Massey, 50. "She was last seen alive in the latter part of September in Scott County," Pollard said. Her son filed a missing person's report Oct. 1.

Authorities with the Lexington Police Department are investigating the matter as a homicide, Pollard said. When fishermen found the arm in October, floating near the locks, Pollard estimated it had been in the water for about three weeks. The torso showed about the

same decomposition as the arm from the elements, he said. Massey's son, who has been jailed in Bourbon County on unrelated matters, has been notified that she has been identified. At least with Massey being identified, her family members can have some closure, Pollard said.

## EPD officer conducts lifesaving traffic stop

BY CHRIS BROOKE  
editor@hclocal.com

A Nov. 29 traffic stop by an Eminence police officer may well have saved a young man's life, according to his grateful parents. The Hebron couple has expressed great appreciation for the care and compassion shown by Eminence Police Officer John Bailey when their son suffered a severe allergic reaction recently. The family sent an appreciation letter to Police Chief Carey Duncan for the way that Bailey handled the medical emergency that occurred when their son was making his way home through Eminence. Running radar on Hwy. 55 at the time, Bailey pulled over a speeder who also had his emergency flashers going, the officer said.

It quickly became obvious to Bailey the driver was having health issues. His face was swollen significantly and his skin was red and irritated. Despite this, the man refused to go to the hospital with the EMTs. Bailey remained with the man, who got worse as time went on with his breathing getting shallow. The man said his hands felt like they were on fire. The couple received a call at about 12:15 a.m., informing them of their son's condition while reassuring them that emergency medical technicians were responding to the scene, according to their letter. The parents decided to come help their son.

"We started the 55-mile trip to Eminence, distraught and worried," the couple wrote. "Throughout the trip, Officer Bailey contacted us and advised us he felt Andrew should be transported to a local hospital for further care."

CHRIS BROOKE/LOCAL

Kerry Skaggs of Corinth drove 50 miles to put the Bethlehem postmark on his Christmas cards as his wife Phyllis watched. The couple said the holiday posts help them get their Christmas celebrations get started right.

## Merry Christmas from Bethlehem

*Seasons greetings even more special with stamp*

BY CHRIS BROOKE  
editor@hclocal.com

Many mail patrons believe nothing says "special delivery" during the holidays like sealing their Christmas cards with the Bethlehem, Ky., postmark.

The rural community's name and its post office's holiday postmark bring a special resonance for holiday greetings.

While some celebrants ship big boxes or packages to the post office to have their mail stamped, others pay an in-person visit to Bethlehem.

Kerry and Phyllis Skaggs drove 50 miles from Corinth to get their cards in the mail, for example. Kerry sat down at the table, already stacked with piles of stamped and addressed envelopes, where volunteer Billy Hackett continued working, in order to place the postmark himself. "We come here every

year," Skaggs said. "It's 'cause it's part of Christmas. It'll get you in the Christmas spirit, right here. If this don't do it, nothing will."

Skaggs is from a family of brothers and sisters, so there's a lot of cards to send out, his wife Phyllis said. "It just starts our Christmas off in the right direction."

The Bethlehem postmark draws a lot of comments from their card recipients, Skaggs added.

On Thursday morning —

the post office only opens from 9 to 11 a.m. weekdays — some of the stacks of Christmas greetings arrived from Louisville, Marshall, Ill., and Amsterdam, Ohio, but there's also proof of international interest in cards that show up from Australia and the United Kingdom.

Hackett has helped the post office out during the holidays for the past five years. He volunteers because it gives him something to

## Guilty plea entered in dog torture

BY MELISSA BLANKENSHIP  
publisher@hclocal.com

Brandon Grant admitted that he beat two dogs to death with a baseball bat in Henry County Circuit Court last Thursday.

Grant pleaded guilty to two counts of torture of a dog/cat with serious physical injury or death, Class D felonies. According to court documents, Grant tortured and killed two dogs, Princess Bell and Gunner, that he co-owned with his then-girlfriend.

Grant pleaded guilty to the original charges against him, which will play a factor in his sentencing. In his sentencing recommendation, Grant would receive three years for each count, to run concurrently for a total of three years, but those would all be served on probation.

See **TORTURE**, page A2

## Campbellsburg man killed in train accident

BY CHRIS BROOKE  
editor@hclocal.com

A 38-year-old Campbellsburg man died Dec. 12 after an accident on the railroad tracks in Turners Station, Kentucky State Police say.

They have identified the victim as Edmond W. Smith, who was lying on the tracks near his residence when a train approached, according to a KSP news release.

State police dispatchers received a call from CSX Transportation, reporting a train had rolled over what they believed to be a person.

His friends told investigators that Smith would regularly walk to and from Campbellsburg by the train tracks, Henry County Coroner Jimmy Pollard said. It's not clear why Smith was lying on the tracks as the train approached.

Authorities believe alcohol was a factor in the incident, according to the KSP news release.

Officials are waiting on toxicology reports, Pollard said.

Trooper Steven Dykes is leading the investigation. He was assisted at the scene by Trooper Matthew Whalen, Sgt. Jeff Ayers, CSX personnel and Pollard.

# Lisa's Closet provides assistance in time for Christmas

**BY CHRIS BROOKE**  
editor@hclocal.com

Lisa's Christmas Closet, after a two-year hiatus, will open Dec. 20 to spread some holiday cheer.

Lisa Prewitt invites members of the community to help themselves to donated toys, clothes, housewares, furniture and more at the Prewitt Funeral Home at 5901 S. Main St. in Eminence from 11 a.m. to 4 p.m., just in time for Christmas.

"I get it for free, and I give it away for free," Prewitt said.

Prewitt first got the idea to provide to open Lisa's Closet about six

years ago when she served as a case manager for behavioral and emotional disabled children, working to help meet the families' needs.

It became clear to her the available resources were limited, so Prewitt decided to create a place where people could come and get the furniture, clothes, toys, mattresses — whatever they needed.

After donations filled up the storage space at the Prewitt Funeral Home in New Castle, Prewitt said her husband Greg Prewitt renovated the basement of the Eminence location for Lisa's Closet.

She didn't say no to any donations that were

in fair shape.

Due to a shortage of volunteers, Prewitt closed down the closet and donated everything to other non-profits two years ago.

Recently, though, after a discussion at a Communities in Action meeting about local need, Lisa's Closet will make a brief reappearance.

"I said, you know what, why don't we just open it up for Christmas," she said. "Instead of every day of the year, it will be one day and I can handle that."

Prewitt sees this as the wintertime complement to Hearts of Grace,

which helps students and families get clothes, shoes and other supplies during summer before school opens up each year.

Donations have come in from as far away as Louisville, and the family resource center had some items to contribute.

She appreciates the donors, people from Communities in Action who have volunteered and, especially, her husband.

"My husband is a saint because he is the one who picks up everything," she said. "I could not do it without him. He lets me pursue my passion, which is helping other people."

SUBMITTED  
Avery Lewis helps organize Lisa's Closet to give out items Dec. 20.

## TORTURE

FROM PAGE A1

The conditions of his probation include a requirement to attend and complete a court-approved drug treatment program, pay a fine of \$500 and court costs of \$155, have no new offenses or probation violations, have no missed, diluted, refused or positive drug screens, have no contact with his previous girlfriend, the victim in this case, and that there be no animals of any kind at the residence he stays during the probation period, which is his grandfather's home.

"If there are any problems with the MCR, I will issue a bench warrant," warned Circuit Court Judge Karen Conrad. "Any violations will result in a revoked probation."

Grant will be formally sentenced and released in February 2015.

**Glenda Holcomb**

Glenda Holcomb opted to plead guilty to amended charges against her rather than move on to a jury trial.

In Henry County Circuit Court last Thursday, Holcomb pleaded guilty to kidnapping

MELISSA BLANKENSHIP/LOCAL

**A probation officer explained procedure to Brandon Grant after he pleaded guilty in Henry County Circuit Court last Thursday. After his sentencing in January, Grant will likely be released from jail but must adhere to the conditions of his probation.**

and tampering with physical evidence in exchange for having two charges of assault, second degree and a charge of complicity to commit assault fourth degree domestic violence with minor injury dropped.

According to the criminal complaint, Glenda "Tooty" Holcomb, of Pleasureville, "intentionally caused physical injuries to the victim by means of two weapons causing two injuries. By hitting him in the

head with a ball bat and stabbing him in the arm with scissors causing bloody cuts and bruises and substantial pain to the victim....Tampered with physical evidence by taking the weapons and bloody clothes and cleaning supplies to a Trimble County location to hide them."

In pleading guilty, Holcomb admitted to holding an adult male victim in her home and prevented him from leaving. She also admitted to clean-

ing her house with bleach to eliminate blood stains from an assault on the victim.

The plea agreement includes a recommendation of sentencing of ten years for kidnapping and five years tampering with physical evidence, with both sentences to run concurrently for 10 years, but the Commonwealth suggested an alternate sentence of 180 days. Holcomb is currently being held in the Shelby County Detention Center, where she will likely serve out the remainder of her sentence.

Holcomb will be required to pay court costs and fees and adhere to all probation recommendations upon her release, including one of no contact with the victim.

She will be formally sentenced on Jan. 15, 2015.

**Dec. 13 Arraignments**

Derek L. Cooper – Pled not guilty to fleeing or evading police, first degree; three counts of wanton endangerment of police officer, first degree; wanton endangerment, first degree; two counts of criminal mischief, first degree; two counts of assault of a police or probation officer, third degree; and resisting arrest

Daniel Riggs – Pled not

guilty to wanton endangerment, first degree; tampering with physical evidence; possession of a controlled substance, first degree, first offense (opiates); drug paraphernalia (buy/possess); and operating on a suspended operator's license

Elias D. Rodriguez – Pled guilty to trafficking in marijuana, 8 ounces to five pounds, first offense (amended down from enhanced charge); possession of marijuana (amended down from enhanced charge); carrying a concealed deadly weapon; failure of owner to maintain required insurance, first; and speeding 26 MPH over limit

Christopher L. Flemming – Pled not guilty to enhanced trafficking in marijuana, 8 ounces to 5 pounds, first offense; enhanced possession of marijuana; and carrying a concealed deadly weapon

Ashley B. Barnett – Pled not guilty to trafficking in a controlled substance, first degree, first offense (heroin)

Curtis Sanford – Pled not guilty to burglary, second degree; and attempted rape, first degree

Charles Hagan Thomas – Pled not guilty to four counts of sexual abuse, first degree.

## MERRY

do and it keeps the Christmas tradition alive.

He sees a difference in the volume of mail from year to year.

"It's getting a little less every year," Hackett said. "I guess the cost of postage, the cost of the cards and maybe the economy, too."

With 14 days until Christmas, Postmaster John Donnelly felt the real rush would commence in the week before

the holiday.

"They haven't really kicked in yet, but we get big boxes of them," he said. "I think they might have stamped 10,000 letters last year, by hand, one at a time."

While many of the letters come in with their seasonal postage stamps on already, Donnelly took a call from a woman who wanted to buy 4,000 stamps to go on her Bethlehem-postmarked cards.

He's glad the post office can help people send special messages. Donnelly personally pre-

fers hard-copy Christmas greetings over those that may come over social media.

"Holding that piece of paper, you can read it over and over again," he said.

## Expecting a new era of transportation snarge

With futurists frustrated with the lack of hover boards and levitating cars, I expect the public will eagerly embrace the possibilities presented by the next best thing — aerial drones.

Along with this advancement in sky-borne craft there will also come new unintended consequences. In this case, more snarge.

Anybody who remembers the “Miracle on the Hudson,” on Jan. 15, 2009, when U.S. Airways Flight 1549 pilot C.B. Sullenberger brought his plane down for a safe landing on the New York river after his vessel encountered a double strike to the engines.

That’s when “snarge” became a household word outside of the aviation community. Basically, it’s what left of the

CHRISTOPHER *brooke*  
Editor

bird, or birds, after a collision between flying animals and a flying construct. Sullenberger’s flight had been particularly unlucky in that two geese forced engines to fail and led to the emergency landing.

This incident also forced me to re-examine the vague dream of a personal airborne vehicle. Not to be a spoilsport, but it seems, far from the sky opening up new safe and uncluttered avenues of transportation, several complications would quickly arise.

Imagine, if you will,

the aggressive drivers who travel 20 to 30 mph over the speed limit on the interstate, but are nonetheless constrained to highway lanes, more or less, all of the sudden being able to go anywhere in the atmosphere — up, down or sideways.

Sounds bloody terrible to me.

The possibilities of mayhem seem quite immense to humans, to our elaborate system of commercial transit, to the population still on the ground, to property and to the other inhabitants of the firmament.

With drones, we’re poised at the dawn of a new era of transportation-kill. It’s not going to be just roadkill any longer. And that’s why I support what others consider overly restrictive regulations being considered by the Federal Aviation Administration: requir-

ing drone operators to get pilot’s licenses, keeping the devices relatively low and always keeping the doohickey in sight.

When automobiles first arrived on the scene, I wonder how long it took citizens and leaders to fully comprehend that a number of those behind the wheel would be — let’s call it what it is — an absolute menace to others.

Five million passenger vehicle accidents in the United States a year isn’t unusual, so there’s that.

In addition, drivers find many other things to hit, too, besides other personal property. Studies referenced on the roadkill entry on Wikipedia estimate the number of animals killed on roads in the United States at a million per day and somewhere in the neighborhood of 350,000 to 27

million birds killed on European roads each year. Big neighborhood.

Drones don’t and won’t have the massive heft of ground transportation, and that’s a good thing.

I think many birds may prove stout enough to survive a close encounter with drones. However, drones may not continue to be airworthy after having a collision with an eagle or a vulture.

And what might be the result of drones being overtaken by a flock of geese? Something is probably going to go “ker-thunk.”

If a penny falling from the roof of a skyscraper is enough to cause injury or worse, then get your litigating attorneys ready for the times when retail booksellers try to send out “War and Peace”

and other weighty tomes by drone.

This is not even the worst-case scenario. What will happen if the four-bladed, mini-helicopters turn into our future snarge?

This is not an outlandish idea by any means. Perhaps other current events fans like myself have heard of what people on the ground have been doing with their exciting new toy — the laser pointer. Shining it in the eyes of commercial pilots. Brilliant idea.

Hopefully, there’s no thrill monger or grudge holder out there who wants to attempt something similar with a drone.

So, unless every person operating a drone in the future is their technology’s equivalent of a Sullenberger, I believe soaring spirits are likely to come crashing down hard.

*The office of the Henry County Local will close at noon on Wednesday, Dec. 24, so our employees can celebrate Christmas with their families.*

Advertising deadlines for display ads are:

- 12 p.m. Monday for the Local
- 4 p.m. Thursday for Kentuckiana

## Leadership class tackles park sidewalk project

Have you ever looked at a local history book and wondered about the businesses and people who came before your time? Some have been immortalized through writings and pictures, but many businesses have no marker that proved they once were a vital part of Henry County. This Leadership Henry County project gives both businesses and individuals a place where their names will be seen and remembered by many generations to come.

There have been 12 Leadership Henry County classes with many interesting projects — 1877 E Howard Clock restoration, disc golf course, benches and trees for the new service and recreation park and more — that have added much to life in Henry County, but the class of 2014 has chosen a project which will help make life better for many and allow many to be remembered for

**PAT***wallace*  
Henry County Chamber of Commerce

generations to come.

The class had the opportunity to meet wonderful people in their exploration of our beautiful county, but one visit with the residents of Cedar Lake Lodge Park Place inspired them to work toward making outdoor life better for them and others.

This project builds on the dedicated work done by Friends for Michael, as their playground provides opportunity for both the disabled and the rest of the family to play together. The class felt a sidewalk to the fishing

pond would allow all to fish together and enjoy their time in the park.

The Leadership Henry County Class of 2014 decided that as a class project they would build a sidewalk from the walking path to the fishing pond at the Henry County Services and Recreational Park so that both handicapped and others could easily access the area.

Taking a wheelchair through the grass often keeps dedicated fishing lovers from using this facility and the project will benefit others with ambulatory difficulties.

Census data showed that within Henry County over 330 residents have ambulatory difficulties.

If Oldham and Shelby are included, the number rises to over 3,200. Creating more spaces where all members of the family and community can feel welcome reflects on the value that a community places on diversity,

equality, human rights and fairness.

The sidewalk would be approximately 140 feet long and four feet wide with a brick paver border on both sides. This would end with a 12-by-15-foot pad next to the pond. Areas of attractive landscaping will be planted along the sidewalk.

In order to do this project, the class members are asking for sponsors to donate \$350 and in return, their business (or family) name will be recognized with a 6-by-12-inch engraved granite which will last for many years.

Stones can be personalized with engraving up to four lines with 12 characters per line, including spaces and punctuation. A charitable donation of \$350 will help cover the cost of concrete, labor and granite.

If you wish to honor or place an order in memory of a four-by-eight-inch brick along

the side of the walk, they are available for \$50.

They can be personalized with engraving up to three lines with 10 characters per line, including spaces. Materials and labor will be done locally.

Either of these choices will go a long way toward making life better for many people.

Christmas is coming and everyone has a list with a big question mark by certain names as these friends or relatives seem to have everything they want or need.

This is a perfect gift for them or anyone you might want to honor or remember.

Businesses who wish to have a spot in the history of Henry County will not only want to be remembered in the decades to come, but also make a real difference in the lives of many.

Brochures are available at the Henry County Library, the Chamber office, Extension office or any class member with

the order form. Give the recipient of your gift a copy of the order form and you will have finished shopping much more quickly than you ever thought possible.

There are three benefits to this gift: you finish shopping quickly; you make a donation to help many others; and you get a tax deduction. Checks made to the Cedar Lake Foundation are tax deductible under charitable organizations and should be mailed to Sharla Clubb, Treasurer, 841 Point Pleasant Road, Eminence, KY 40019.

Cindy Johnson, Sharla Clubb, Vicki Yeary, Mike Ray, Rev. Thomas Minton, Rev. Barbara Minton, Jessica Powell, Rose Helen Murray, and Tish Stewart are so enthusiastic about their project's contribution to making a better life for others. Their slogan is "Personalize a Path: Commemorate a Community." Please consider helping their

## Clerks' offices announce holiday schedule

Two Henry County offices have announced their schedule for the holidays.

The Henry County Clerk's Office will close at 3 p.m. Dec. 24 for Christmas and will reopen Dec. 29, according to Shanda Archer.

For New Year's, the office will close at 4 p.m. Dec. 31. The county

clerk's office will reopen Jan. 5. The hour of the reopening will be based on the state auditor's office closing out inventory. County clerk's office staff hopes to reopen by noon that day, but suggests calling the clerk's office at 845-5705 before coming to conduct business.

During the holidays,

the Henry County circuit and district court and driver's license office will close at noon Dec. 24 and reopen Dec. 29, according to Henry Circuit Court Clerk Gina Lyle.

For New Year's, the courts office will close Dec. 31 at 4 p.m. and reopen Jan. 5.

## STOP

FROM PAGE A1

Bailey took the man to Baptist Hospital in LaGrange, where he responded to treatment.

The man agreed to go when his parents insisted on it.

"This is the first time [our son] has suffered such an attack and he was traveling along through an unknown, deserted stretch of road, at an extremely late hour," the letter said. "Thankfully, Officer Bailey observed [our son's] vehicle driving through with the hazard lights flashing and executed a traffic stop. We believe that Officer Bailey's efforts may have saved [our son's] life that night."

"Please know that the good deeds and excellent work provided by

your officers and your department are greatly appreciated," the letter concluded.

Duncan responded that he, too, felt impressed with Bailey's response to the situation that morning.

"Though I believe all of our police officers would step up to the plate, demonstrate this degree of critical concern and then act accordingly, I am blessed to know that when the opportunity arose, there was no hesitation," the chief said.

"He made a lot of good decisions really quick, very caring," Lt. Kevin Kemper told the Eminence City Council about Bailey's actions.

Taking the man to the hospital in La Grange also made it easier for his parents to respond, in that they could go right to the hospital from Interstate 71, Kemper

added.

Bailey felt terrible for the man.

As a police officer, Bailey advised the man to pull over and call for help from 911 if he ever suffers from such a debilitating allergic reaction again.

But the officer refrained from writing out a speeding ticket.

"I felt he had enough going on, it didn't make any sense for me to write him a ticket," the officer said.

Bailey was glad the man responded to treatment with antihistamine and steroids.

"Well, you know, the parent comes out in you," he explained. "That could be my son one day. I'd want someone to take care of him until I got there. It's what we're all here for — to take care of each other."

# History of Henry County Extension - The Agents

The Smith-Lever Act of 1914 provided for the Cooperative Extension Service across the United States. While some counties developed their County Extension Service earlier, Henry County's first County Extension Agent was hired in 1925.

The motivating force for the hire came from the Eminence Chamber of Commerce, who put together a package paid for by the seven banks, the Chamber and the Fiscal Court.

With an agreement from the Editor Kenneth Small of the Henry County Local that the newspaper would provide free "office space" in their large front room in New Castle, a selection committee was formed and with the help of the University of Kentucky College of Agriculture's State Agent Charles Mahan, Carl Malone was hired. Malone served from 1925 to 1927.

Kay Skidmore Smith and Mary Lynn Skidmore Neat have told me about their father's (L. C. Skidmore) experiences in a 4-H Baby Beef club during that time. Malone made a personal visit to the Henry County Extension Office in 1983 and delivered his memoirs of his work here.

The next County Agent for Agriculture was Harry D. Rice, who served from 1927 to 1938. He was succeeded by J. G. Dye, who served from 1938 to 1939.

William B. Howell was next, from 1939 to 1946, when he transferred to Mercer County.

The April 6, 1946 edition of the Local announced his replacement as Holmes Ellis, who had just returned home from 8th Army Headquarters staff in the Pacific with the rank of Major.

Ellis served until 1948, when I've been told he moved to western Kentucky and eventually served as executive director of the Dark Tobacco Association.

The sixth County Agent for Agriculture was O. D. Perkinson, who served 17 years, from 1949 to 1966. Many folks still remember Mr. Perkinson, who retired to his farm near Hopewell Baptist Church.

## UK COOPERATIVE EXTENSION SERVICE

### Extension Notes

#### Agriculture and Natural Resources

Steve Moore  
Henry County Extension Office

The current farm owner has renovated all the barns and outbuildings on the property, including one which may well have been the first Henry County 4-H Building as a result of several 4-H meetings being held there.

A lot of folks fondly remember the service of the seventh County Agent for Agriculture, James T. Prewitt from 1967 to 1983. Mr. Prewitt helped spearhead the move of the Extension Offices from the Courthouse to the present Farm Bureau Building in 1978.

Mr. and Mrs. Prewitt (who retired as Henry County Librarian) currently reside at the Masonic Home in Shelbyville, and recently celebrated their 70th wedding anniversary.

I became the eighth Henry County Extension Agent for Agriculture in 1983 after Mr. Prewitt's retirement.

The position of County Extension Agent for Home Economics was first filled in 1939. As with the hiring of the first Agent in 1925, Fiscal Court had a decision to make. This time, the choice was between hiring a County Agent for Home Economics or replacing the coal stoker for the courthouse boiler. They decided to hire Bina Baird as Agent. For years afterward, Attorney Jimmy Thomas called her "Stoker." Miss Baird married John M. Foree, and after serving as Home Economics Agent through WWII until 1951, retired as a Henry County Public School teacher. Doris Furnish served next, from 1951-1954, followed by Ruth A. Marcum from 1954 to 1958.

The next Home Economics Agent was Geraldine Bentley, who served from 1958 to 1962. Geraldine later retired as Jefferson County Home Economics Agent. While in Henry County, she lived in Eminence and boarded with Andy and Margaret Johnson.

Jennie B. Arvin was next, serving from 1962 to 1964.

Katie Sue Brumagen was hired as Home Economics Agent in 1964. As did Bina Baird Foree, she met and married a local farmer, Robbie Yount. Katie Sue served as Home Economics Agent until 1970, when she transferred to County Agent for 4-H and served there until 1972. Eloise McKittrick was the next Home Economics Agent, serving from 1971 to 1973. She was followed by Jeri Cockrel, the eighth Home Economics Agent, who served from 1973 to 1985.

Maryellen Garrison became the ninth County Agent for Home Economics in 1986, and although the position is now known as County Agent for Family and Consumer Sciences, Maryellen is still in that post. Having served in two counties before Henry, Maryellen now has 43 years of Extension Service.

The County Extension Agent for 4-H position has had a couple of names over the years also.

Essentially, the first 4-H Agents were employed as Assistant County Agents. The first Assistant County Agent for Henry County was Harold Binkley, in 1939. We have no record of his length of service.

The next Assistant was Wayne Sininger, from 1956 to 1961. Sininger later retired as Grant County Agent for Agriculture. Next was Howard Baker, from 1961 to 1965, who rented a house from William Price and Lena May Stivers on Scobie Lane. Howard retired from the Extension Service as Agriculture Agent in Bracken County.

Roger Leggett served from 1965 to 1969, and later retired from USDA Farm Home Administration in the Bardstown area. We have record that a John Marcum served in 1970. At about this time, the

SUBMITTED

James Prewitt, with pipe, Henry County Extension Agent for Agriculture from 1967 to 1983, is shown inspecting some of the fine burley tobacco produced by Mr. Alvin Croxton at the Croxton farm on Bullet Hill Road.

SUBMITTED

The man in this photo copy is thought to be Harry Rice, Henry County Extension Agent for Agriculture from 1927 to 1938. Records indicate this is a field of red clover on the John Morgan farm near Sligo used in an Extension Demonstration of the use of Lime to boost legume yields.

term Assistant County Agent was dropped, and County Extension Agent for 4-H became a career, instead of a stepping stone to an agriculture position.

Katie Sue Brumagen Yount became 4-H Agent for 1971 and 1972. She and husband Robbie are still active in youth activities, each year hosting a 4th grade agriculture field trip showing food production from farm to table on their Bethlehem Farm.

Scheryl Reinhart followed Katie Sue, serving from 1972 to 1974. On June 1, 1974, I became the eighth Henry County Extension Agent for 4-H, serving in that capacity until November 1, 1983, when I trans-

ferred to become the eighth Henry County Extension Agent for Agriculture.

Following me were three 4-H Agents who served five or so years each. Donette Gaines served from 1984 to 1989. She later became Owen County 4-H Agent. Val Shields served from 1989 to 1994, when he transferred to become Pendleton County Agent for Agriculture. Kevin Kinney served from 1994 to 1997, when he transferred to become Shelby County Agent for 4-H.

Cathy Robinson Toole became Henry County Agent for 4-H in 1997, the position in which she currently serves. At 17 years, Cathy has the

longest tenure (by a lot) as 4-H Agent in Henry County, and may have been the first Extension Agent hired after a long standing tradition rule was changed. For decades, Agents were not eligible to serve in their home county.

From this record of Extension agents who have served Henry County for the past 90 years, a couple of points stand out. Many went on to full careers elsewhere in the Extension Service, and many retired and stayed right here. From these observations, it may be noted that Henry County has always been a good training ground, but it has also been a good place to live and stay.

# Think environmentally friendly this holiday

During the five weeks between Thanksgiving and New Year's, Americans produce an extra one million tons of trash per week compared to any other time of the year.

Thinking green this holiday season can include more than just boughs of holly.

Whether it is shopping, choosing a gift or entertaining, small changes in your holiday habits can make big differences.

Here are a few ideas and suggestions on how to have a wonderful, gift-giving holiday season and still be earth friendly.

## Green Gift Ideas

Consider nonmaterial gifts. Tickets to a sporting event, movie, play or

### Extension Notes

#### Family and Consumer Sciences

Maryellen Garrison  
Henry County Extension Office

concert are a real treat, or make a charitable donation in someone's name.

Make a photo album, scrapbook or frame a favorite picture.

Everyone appreciates a home-cooked meal or baked goodies.

Fill a basket with homemade jellies, muffins and cookies. Include the recipe. Dried fruits, drink mixes and roasted nuts are always appreciated. Package gifts from your kitchen in reusable tins, baskets or jars.

Shop locally. Give

honey from a local beekeeper, a painting by a local artist or handcrafted gifts from other merchants in your community.

Think durable. Consider how long an item will last before you make a purchase.

Often a cheaper item will wear out long before its more durable equivalent.

## Eco-friendly

## Entertaining

Host a create-your-own-decorations party.

Invite family and friends to create and use holiday decorations such as popcorn and cranberry garlands, ornaments made from old greeting cards or cookie dough, wreaths made from artificial greens and flowers and potpourri made from kitchen spices such as cinnamon and cloves.

Make gift-giving occasions festive by preparing punch and serving it in beautiful bowls and pitchers rather than using beverages in cans or plastic bottles.

Use your best china, glassware and cloth napkins for entertaining.

It requires a little more work but reduces waste from paper plates, napkins and disposable utensils.

## Reduce, Reuse and Recycle

Thousands of paper and plastic shopping bags end up in landfills every year. Reduce the number of bags thrown out by bringing reusable cloth bags for holiday gift shopping. Tell store clerks you don't need a bag for small or oversized purchases.

Wrap gifts in recycled holiday paper or funny papers. Use old Christmas cards for tags and hand-deliver whenever possible to save energy.

Remember to save and recycle used wrapping paper and ribbons from gifts received.

Approximately 33 million live Christmas

trees are sold in North America every year.

After the holidays, look for ways to recycle your tree instead of sending it to a landfill.

Remember always to look for items made with recycled content.

When buying gifts, check product labels to determine an item's recyclability and whether it is made from recycled materials.

Buying recycled encourages manufacturers to make more recycled-content products available.

*Educational programs of the Cooperative Extension Service serve all people regardless of race, color, sex, religion, disability or national origin.*

# Beef producers vote for extra assessment

Kentucky beef cattle producers voted to assess themselves an additional \$1 per head on cattle marketed in Kentucky in a statewide referendum held in November.

The final tally was 1,816 in favor of the state check off and 1,423 against.

The assessment will take

effect April 1, 2015.

Producers who pay the assessment may request a refund from the Kentucky Cattlemen's Association in writing within 30 days of the date that the assessment is collected.

The Kentucky State Board of Agriculture called for the

referendum in August at the request of the KCA.

State law requires the Kentucky Department of Agriculture to carry out a referendum at the direction of the board.

In a letter to the board requesting the referendum, Dave Maples, executive vice

president of the KCA, said the assessment would be used "to promote [and] stimulate, by research, market development, and education, the use and sale, domestic and foreign, of bovine animal products."

The entire \$1 state check off will be used for programs in Kentucky, whereas the \$1

national check off is divided between the state and the national Cattlemen's Beef Promotion and Research Board.

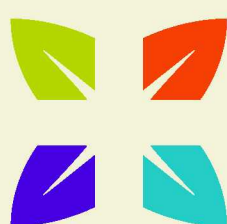

For more information, contact Dave Maples at (859) 278-0899 or [dmaples@kycat-tle.org](mailto:dmaples@kycat-tle.org).

## IT'S CONTAGIOUS.

Warm wishes for the happiest and healthiest of holidays.  
Merry Christmas from our Baptist Health family to yours.

The real risk is not knowing.

# Schedule your lung cancer screening.

Smoking causes about 90% of lung cancers in the U.S., but early detection can increase your chances of survival by nearly 50%. If you are between 55 and 79, have a history of cancer, are a smoker, former smoker and it has been less than 15 years since you stopped smoking, have COPD or pulmonary fibrosis, and/or it has been more than one year since your last chest CT, you can detect lung cancer early – at its most treatable stage – with a lung cancer screening. Our \$185 lung cancer screening is safe, effective and, most important, it could save your life.

**Call 855.34.KYONE (59663) to schedule your screening at one of our convenient Louisville locations.**

Pursuant to Section 324, Title III of the 1986 Federal Superfund Amendments and Reauthorization Act (SARA) of 1986 in compliance with the Community Right to Know requirements of the SARA law, and the open meetings and open records provisions of the Kentucky Revised Statutes. The county Local Emergency Planning Committee has been created in order to collect information about the manufacture, storage and use of hazardous chemicals. Members of the public may request to be notified of regular or special meetings of the planning committee, as provided in KRS 61.820 and 61.825. Records of the planning committee, including the County Emergency Response Plan, material safety data sheets, and inventory forms or any followup emergency notices as may subsequently be issued, are open for inspection, and members of the public who wish to review these records may do so by making an appointment with the Henry County Disaster and Emergency Services coordinator, Jody Rucker, at 845-4916 or 609-4302 (cell).

The local 24-hour number for purposes of emergency notification as required by SARA is 845-4916.

The next Local Emergency Planning Committee meeting will be at the Henry County Courthouse Annex on December 22 at 12 p.m.

## 20 Lost

**CASH REWARD:OUR CAT** Tiger went missing on 10/21 near the Midland Blvd. area. He is a young male cat, orange with orange tiger stripes.(Orange Tabby Cat) If you have seen him or know where he is or what happened to him please call. A reward is being offered for information leading to his return. (502)513-5212 or (502)220-3842

**REWARD OFFERED - MISSING/LOST POSSIBLY STOLEN**

Reward to anyone knowing any information that will lead to finding our male Great Pyrenees. He answers to Mack but, may be scared/skiddish. He has been missing since Tuesday, September 23rd. His home is at the Anderson Spencer line on the Anderson side. Mack had a black collar with tags on that may or may not be on him any longer. He has multiple dewclaws in the back and some additional vet documented features that we can use to identify him. I am hoping that no one has acquired him with the intentions of keeping him or harmed him in any way. We will take any information seriously. So, please do not hesitate to give us any information. It will be appreciated. We have searched and will continue but, we need your help to find him. If you see him or know someone has him in their possession, please contact us. Our family misses him and wants him to be home.

Tags will state our home number but, we are easily contacted at 502-803-5824 (text or call) or 502-517-1922 (text or call)

## PUBLIC NOTICE

The Housing Authority of Eminence has developed its Five Year Agency Plan in compliance with the Quality Housing and Compliance Act of 1998.

It is available for review at the Housing Authority's Administrative Office, located at 791 Canon Court, Eminence, KY 40019. The Authority's hours of operation are 8 a.m. to 5 p.m. Monday through Friday.

A public heading will be held on Monday, December 29, 2014, at the Administrative Office at 5:30 p.m. Everyone is invited.

**ADAM H. EDELEN**  
**AUDITOR OF PUBLIC ACCOUNTS**

To the People of Kentucky  
Honorable Steven L. Beshear, Governor  
Lori H. Flanery, Secretary  
Finance and Administration Cabinet  
Honorable John Logan Brent, Henry County Judge/Executive  
Honorable Danny Cravens, Henry County Sheriff  
Members of the Henry County Fiscal Court

## Independent Auditor's Report

**Report on the Financial Statement**  
We have audited the Henry County Sheriff's Settlement - 2013 Taxes for the period April 16, 2013 through April 15, 2014 - regulatory basis, and the related notes to the financial statement.

**Management's Responsibility for the Financial Statement**  
Management is responsible for the preparation and fair presentation of the financial statement in accordance with accounting practices prescribed or permitted by the laws of Kentucky to demonstrate compliance with the Commonwealth of Kentucky's regulatory basis of accounting as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**  
Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in **Government Auditing Standards** issued by the Comptroller General of the United States, and the **Audit Guide for Sheriff's Tax Settlements** issued by the Auditor of Public Accounts, Commonwealth of Kentucky. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles**  
As described in Note 1 of the financial statement, the financial statement is prepared by the Sheriff on the basis of the accounting practices prescribed or permitted by the laws of Kentucky to demonstrate compliance with the Commonwealth of Kentucky's regulatory basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statement of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

**Adverse Opinion on U.S. Generally Accepted Accounting Principles**  
In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statement referred to above does not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County Sheriff, as of April 15, 2014, or changes in financial position or cash flows thereof for the year then ended.

**Opinion on Regulatory Basis of Accounting**  
In our opinion, the financial statement referred to above presents fairly, in all material respects, the taxes charged, credited, and paid for the period April 16, 2013 through April 15, 2014 of the Henry County Sheriff, in accordance with the basis of accounting practices prescribed or permitted by the Commonwealth of Kentucky as described in Note 1.

**Other Reporting Required by Government Auditing Standards**  
In accordance with **Government Auditing Standards**, we have also issued our report dated September 26, 2014 on our consideration of the Henry County Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Henry County Sheriff's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with **Government Auditing Standards** in considering the entity's internal control over financial reporting and compliance.

Respectfully submitted,  
  
Adam H. Edelen  
Auditor of Public Accounts

September 26, 2014  
State law requires the Auditor of Public Accounts to annually audit fiscal courts, county clerks, and sheriffs; and print the results in a newspaper having general circulation in the county. The complete audit and any other audit of state agencies, fiscal courts, county clerks, sheriffs, and property valuation administrators may be viewed in the reports section of the Auditor of Public Accounts' website at [www.auditor.ky.gov](http://www.auditor.ky.gov) or upon request by calling 1-800-247-9126.

## PUBLIC NOTICE

A copy of the complete audit report, including financial statements and supplemental information, is on file at the Sheriff's Office and is available for public inspection during normal business hours. Any citizen may obtain from the Sheriff a copy of the complete audit report, including financial statements and supplemental information, for his personal use. Citizens requesting a personal copy of the Sheriff's audit report will be charged for duplication costs at a rate not to exceed twenty-five cents (\$0.25) per page. Copies of the financial statement prepared in accordance with KRS 424.220 are available to the public at no cost at the business address of the officer responsible for preparation of the statement.

## INDEPENDENT AUDITOR'S REPORT

To the City Council  
City of Eminence, Kentucky

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the business type activities of the City of Eminence, Kentucky, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements case on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the business-type activities of the City of Eminence, Kentucky, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages MDA1-MDA15 and page 33 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Eminence, Kentucky's basic financial statements. The water and sewer fund budget to actual comparison is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The water and sewer fund budget to actual comparison is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the water and sewer fund budget to actual comparison is fairly stated in all material respects in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 3, 2014, on our consideration of the City of Eminence, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of Eminence, Kentucky's internal control over financial reporting and compliance.

we moved the ball the best we have moved it all year.”

**Newport 46 EHS 11**

The Warriors could not sustain their improved play the next night against the Newport Ladycats.

Newport used their superior size and athleticism to jump out to an 8-0 lead. After Tavi West hit a couple of 15-foot jump shots, Newport closed on a 6-0 run to lead 14-5 at the end of the period.

The Warriors’ point guard, Emilie Ethington, went down just a minute into the game with an injured foot and did not return to the game.

“The biggest key to this game was that we were not focused and we didn’t play very hard,”

Adair said. “But losing Emilie early on in the game was a big blow.”

The Warriors struggled offensively the entire game as the Ladycats used a variety of full court and half court defenses.

“I didn’t think we played very hard on offense,” Adair said. “I know the girls want to do well but in this game it just didn’t happen.”

“Kenya Vargas did play hard and she was able to get numerous steals.”

Adair is still focusing on fundamentals that need to improve.

“We missed a lot of layups again,” he said. “That is something we must get better at. Defensively, we have to be more consistent.”

West led the Warriors with five points.

The Warriors fell to 1-4 on the season while Newport improved to 3-2.

He still managed 18 points in that game.

Most Cats fans recognized that Jameson had a lot of ability after watching him play JV last year and also contribute some important minutes for the varsity in the postseason.

I don’t think anybody expected him to move into the role of main man so quickly and so effectively this early in his junior season.

Jameson is smooth around the basket. He is quick and agile for a post player. That attribute is probably the byproduct of being a striker for the Henry County soccer team. He also has a nice touch and doesn’t mind going up in traffic with arms and bodies flying and crashing into him.

Finally, he is a very good free throw shooter for a big man. That is a very valuable asset when you are the guy getting fouled the most on your team.

Henry County assistant coach Brent New brought up an interesting question regarding Jameson and his prolific start to the season. He wondered who Henry County’s last 20 points per game scorer was. I would like to know that too.

If anyone out there can remember a likely candidate let us know and we will pass that info along. I’m sure that it is someone obvious that we are forgetting.

Things will get tougher for Jameson as the season progresses and scouting reports on the Wildcats grow more refined, but right now he looks set to be Henry County’s next 20 point man.

**Montero, Wright in East-West game**  
**SUBMITTED**

Eminence Middle School football players Elijah Montero and DAndre Wright were selected to play for the East team in the Kentucky East-West Middle School Football All-Star game November 30 at Kentucky State University.

Montero, who played running back, receiver, cornerback and line-backer for the Warriors, had touchdown runs of 60 and five yards in the game.

Wright, who played fullback, receiver, defensive end and safety for the Warriors, had one carry for thirteen yards in the game.

The East won the game 40-0.

# WILDCATS

FROM PAGE A16

After Eminence extended the lead back to 16 at 31-15, Henry County big man Gavin Jameson scored inside and Jeffries hit a 3-point-er to make it 31-20 with 2:21 left in the half. The Wildcats were able to reduce the lead to six points at 33-27 when Jameson stole an entry pass on the wing and took it the length of the floor for a layup with 1:35 left in the half. Justin Mitchell extended the lead back to ten points for the Warriors with a drive to the basket and two free throws before Jameson scored with five seconds left to make it 37-29 at half-time.

Jameson opened the second half with two free throws to again cut the lead to six before Bailey hit a 3-pointer to make it 40-31 with 6:57 left in the third period.

The teams battled back and forth before Henry County went on a 5-0 run to make it 41-38 with 4:38 left. Mitchell answered with a baseline drive before Jameson scored inside again for the Cats. That prompted a timeout by the Warriors as they searched for a way to stop Henry County's inside game.

The margin stayed between three and five points before a Bailey layup extended it back to seven points at 51-44 with 14 seconds left. Aneszko hit two free throws at 3.1 seconds but Jeremy Beach fouled shooting a 3-pointer at the buzzer and drained all three free throws to make it an 8-point game going into the final period of play.

Henry County got a break to open the final period when Jackson was fouled while making a 3-pointer and hit the free throw for a rare four-point play. Aneszko hit one free throw with 6:53 to make it 54-51.

The Wildcats finally pulled within one point with 5:56 to play on a drive by Aneszko.

Neither team was able to score over the next 1:19 before Jameson finally put the Cats ahead with 4:37 to go on an inside bucket.

Bailey restored the Eminence lead with a strong drive to the basket with 4:04 left. Henry County failed to score on their next possession and Eminence had a chance

to get the lead back out to three points with just under three minutes to play but the Warriors missed an inside shot and two follow shots inside before Henry County finally got possession back.

Henry County was fouled on the rebound and Jeffries hit one free throw to tie it.

After Eminence missed a 3-point attempt, Henry County gained possession when the ball got stuck between the rim and backboard for a jump ball situation. The possession arrow favored the Cats and they took advantage by getting it to Jameson inside for basket to make it 61-59 with 2:14 to go.

Neither team could score for an extended time and Eminence had a couple of chances to tie but could not get a shot to fall. After Eminence missed inside with 50 seconds left, there was a scramble for a loose ball rebound that the Cats came up with. Brennen Peniston was fouled with 41 seconds left and hit one of two free throws to give Henry a three-point lead.

Cameron Jones hit a runner for the Warriors with 26 seconds left to make it 62-61.

Henry County struggled to get the ball up the floor against Warrior pressure and called timeout with 15 second left. On the ensuing inbound play Aneszko was fouled and sank one of two free throws to make it 63-61 with 12 seconds left.

The Warriors brought the ball down court and called timeout with eight seconds left to try and set up a tying shot. The Warriors got off a runner in the lane but the ball rolled out and Jameson grabbed the rebound and fell to the ground under the Warriors' basket as time ran out and Henry County escaped with an improbable victory.

Warriors' coach Chris Nethery gave Henry County's defense credit for the comeback.

"Henry played very physical defense in the third and fourth periods which forced us into some turnovers and quick shots," Nethery said. "They sped us up and did a great job in the post in the fourth period. I loved our effort but we just did not execute in the last minutes."

Nethery feels late game execution is something critical that is missing for his team.

"We got a total team

effort in this game," he said. "We need to continue with the same effort on defense and rebounding but we need to continue to work on late game situations." Welch felt that the Cats' got big games from his three leaders.

"Gavin was really strong in the post," Welch said. "Our guys, Jackson and Coleton, especially, did a good job of finding him. Jackson's four-point play was crucial to our comeback and after Coleton settled down, he got us in our offenses."

"Coleton along with Brennen Peniston really turned up the pressure on them in the second half."

Jameson led the Cats with 26 points while Jeffries added 17 and Aneszko 15. Bailey led the Warriors with 20 points. Mitchell added 14 points and Jenkins had 10.

## HCHS 61 Gallatin 49

Henry County faced district rival Gallatin County at home Friday night and improved their overall record to 4-1 with the 12-point win. They are now 2-0 in district seeding games.

The Cats fell behind 6-2 but quickly took the lead and eventually built it to a 19-point margin late in the fourth period when Welch emptied his bench.

Jameson again led the team in scoring with 24 points. Jeffries had 11 points while Cameron Johnson and Coleton Aneszko had seven points each.

Jameson is averaging 23.4 points per game through the first five weeks of the season. His performances against Eminence and Gallatin County made him the NCKC player of the week for last week.

"Gavin had another stellar performance in the post," Welch said. "And our guys did a great job getting him the ball, especially Jeffries and Mason Heightchew."

Welch also thought a trio of players keyed what he called the best defensive performance of the season by the Cats.

"Cameron Johnson, Jacob Buckley and Jacob Watson did an excellent job on their best player, Caleb Beckham," he said. "He had 18 points but he had to work very hard to get his points."

Offensively, Welch saw a change from the first four games.

"We got away from the

turnovers that plagued us in the early games," he said. "We executed much better against Gallatin. The experience we've gotten with so many tough games over the first two weeks is starting to pay off."

## Frankfort 72 EHS 64 OT

The Warriors dropped another heartbreaker Saturday when they traveled to Richmond to take part in the Coaches vs. Cancer Classic against the Panthers of Frankfort High School.

Frankfort led after one period, 12-10. The Warriors outscored the Panthers 16-13 in the second period to lead by one point at the break.

Frankfort came back in the third period to lead by four at 45-41 going into the fourth period.

Eminence pulled ahead in the fourth period and led by three points with 1:27 to go.

Frankfort got a big 3-point play to tie the score when they drove the lane and were fouled.

That meant an extra period was needed to decide the outcome. Frankfort dominated in the extra period and pulled away for the eight-point win.

Bailey led the way with 17 points for the Warriors, Kemryn Jenkins contributed 14 points and eighth-grader DAndre Wright came off the bench to contribute 12 points and eight rebounds.

Each game in the Coaches vs. Cancer Classic awarded an MVP trophy and Wright was selected in the Eminence-Frankfort game.

The Warriors and Frankfort were nearly even in every statistical category except turnovers. The Warriors had 28 while Frankfort had just 10. Eminence outrebounded the taller Panthers 40-34.

"The turnovers are misleading," Nethery said. "They are very athletic and press a lot but we didn't turn it over against their pressure. They had to take the press off because we were beating it for easy baskets. Our turnovers were just silly stuff that we have to eliminate."

Nethery was pleased with the team's effort, especially the rebounding.

"Our kids followed the game plan very well," he said. They had a 6'6" kid and a 6'5" kid and we outrebounded them.

"DAndre played

Warriors' play.

"I think they have come a long way," Gilley said. "Coach Adair is doing a good job and the girls seem to be buying in to what he is trying to do."

As for his own team, Gilley felt the team took a while to hit their stride.

"I thought we tried to do too much so quickly and never could get in the flow of the game," he said. "In the fourth period, when we finally got in the flow of the game we were a lot more successful. In the fourth quarter we slowed down our brains and kept our bodies going faster and I thought that was the key to better offensive execution."

Gilley was pleased with the contribution of Medley, a freshman who comes off the bench for the Lady Cats.

"Savannah played well," he said. "She had 10 points. We look for big things in the future from her. She is hard-nosed and athletic. We are very happy with where she is at this point in time."

## HCHS 59 Seneca 29

The Lady Cats continued their winning ways Thursday night with a 30-point victory over Seneca.

The Cats jumped out to a 13-7 lead after one quarter of play and led

GREG WOODS/LOCAL

Top, Jackson Jeffries rises for a jump shot as DeMarcus Bailey defends. Bottom, Jake McKinley tries to shoot over Gavin Jameson.

really well and held his own inside against them. DeMarcus had a pretty good game, but I still don't think he has reached his ceiling."

The Warriors fell to 1-4 with the loss. Three of those losses have come in tight games in which they led late in the game.

Nethery realizes that

with so many new faces in the lineup the team is going to lose some close ones but thinks they are about to turn a corner.

"If we continue to work hard and be in the right places like we have been, we will start to get some wins," Nethery said.

# LADY

EHS' Destany Crawford makes a pass along the baseline as Megan Payton and Sarah Foree defend in the HCHS' 51-28 win Dec. 8.

30-18 at halftime. The Cats were even better in the third period as they outscored Seneca 17-5 to put the game out of reach.

Payton led the way with 29 points.

"Megan dominated inside," Gilley said. "She got all her points in the paint and on short jumpers."

Foree and Haley Miles had eight points each as several Cats contributed to the team's highest offensive output of the season.

"Haley played one of her better games of the year," Gilley said. "She was really focusing on things to make herself a better player."

Gilley was pleased with the team's mindset for the game.

"We took control early and focused on the process and stayed in the moment," Gilley said. "We worked on things that needed to be worked on in that moment rather than dwelling on things that happened in the past or might happen in the future."

## Lloyd Memorial 45 HCHS 36

The Lady Cats traveled to Erlanger the following night to take on the Lady Juggernauts of Lloyd Memorial and found the going difficult early on.

The Lady Cats failed to score in the first

quarter as Lloyd jumped out to a 10-0 lead.

"We got out of the gate slow," Gilley said. "We looked like we were running in mud in the first quarter."

The Lady Cats woke up in the second quarter to score 12 points and pull within nine at halftime by a score of 21-12.

The Lady Cats played the Lady Juggernauts evenly in the second half and cut the score to five points midway through the final period, but they could not get closer and Lloyd stretched the margin back to nine points by game's end.

"We played back-to-back road games and we're still young, but I'm not sure what it was," Gilley said. "Whatever the factor was for such a slow start, we need to be able to overcome that."

Gilley thinks sustaining mental intensity is still a work in progress for the team.

"Right now our kids are wanting to stay focused but are still struggling to be able to do that for 32 minutes," he said. "In every loss there has been an extended stretch of time where we lost focus."

Patton scored 10 points and Foree added nine points for the Lady Cats.

The Lady Cats fell to 2-4, while Lloyd improved to 4-2.

FROM THE SIDELINES

Good  
spiritsGreg Woods  
Sports Editor

When the Henry County Wildcats met the Eminence Warriors on Dec. 9 a large crowd showed up well before tipoff of the varsity game. In fact it was probably the largest crowd that many of the players involved in the junior varsity game had ever performed before.

A large crowd is no surprise when two rivals play but this crowd seemed larger than usual. Two things could have contributed to the higher than usual turnout.

First, Eminence was staging a pack the gym night. The school promoted the game through its mass email sent to parents of students in the school system.

The second reason was that Henry County students got an unexpected day off that day because of a water main leak that flooded the grounds at the high school that day. With no school and no bad weather many students and probably their parents were ready to get out of the house.

The supporters for both teams were loud and involved in the game. The good news is that both sets of fans kept things in the right spirit. There was some good-natured banter back and forth across the gym but it was never ugly. It provided just the right atmosphere for what turned out to be a barnburner.

The Eminence fans had the most to be loud about early on but as the Wildcats slowly worked their way back into the game the Henry County fans began to get verbal revenge for the early taunts.

There have been some ugly moments in recent years between players and fans so it was nice to see that the supporters of each team could cheer their respective players without going overboard into the realm of bad sportsmanship or worse.

All in all it was a perfect night for the rivalry. Both teams played extremely hard and the raucous crowd was rewarded with a great game that came down to the wire. No technical fouls were called, no fans were escorted from the gym and everybody could go home knowing that the players had given it their all.

## Jameson on fire

After scoring 26 points against Eminence and 24 points against Gallatin County, Gavin Jameson is averaging 23.4 points per game for the first five games of the season. He has scored under 20 points in only one game so far this season.

That was the game against Western Hills when none of the Cats could have thrown it in the ocean if they were standing on the beach.

The Henry County Wildcats dug themselves a deep hole against county rival Eminence Dec. 9 at Eminence before fighting back to win 63-61 in the first meeting of the teams this season.

The Warriors jumped out to a 7-0 lead as DeMarcus Bailey scored on a layup and two free throws and Kemryn Jenkins hit a 3-pointer. Henry County struggled to get into an offensive rhythm and called an early timeout to try to right the ship but the Warriors were hot early on and continued to stretch out the lead. Justin Mitchell's two free throws at 4:46 made it 11-2.

The Wildcats got a bucket from Jackson Jeffries to make it 11-4 before Jake McKinley scored on a layup. After Jacob Watson hit two free throws, McKinley had a steal and layup to make it 15-6 with 2:40 to go. Bailey added two

more free throws and the Warriors took a 17-6 lead into the second quarter.

"They jumped all over us and we didn't respond well," Henry County coach Enoch Welch said. "We didn't get into an offense and they got run out baskets. There were a multitude of things we were doing wrong and they were doing right."

Jeffries hit a 15-foot jumper to open the second period but the Warriors responded with a 9-0 run to go up 26-8 with 4:58 left in the half. The 18-point lead would be their biggest of the game as the Cats began to slowly claw their way back into the game.

"We finally settled down about midway through the second period and we just wanted to get it under ten before halftime," Welch said. "We weren't going to do that without pressure, so we got a bit more aggressive with our pressure."

Henry County responded with a 7-2 run to make it 28-15 with 4:30 to play. Jeffries had five points in the run.

## Lady Cats defeat Warriors, 51-28

BY GREG WOODS  
sports@hclocal.com

The Henry County Lady Cats made the short journey to Eminence Dec. 8 and came away with a 51-28 win. The game showed marked improvement for the young Warriors while Henry County got their first victory of the season.

Megan Payton dominated inside in the early going and showed some shooting range with a 3-pointer to open the game. Payton scored nine points in the first quarter as the Cats jumped out to a 14-3.

Eminence showed some toughness to open the second quarter and closed the gap to seven points as Brooklyne Moore and Tavi West scored the first two buckets of the period.

After Sarah Force scored inside for the Lady Cats, West scored on a drive to make it 16-9. Two freshman for the Lady Cats helped push the lead back out. Katherine Buckler hit one of two free throws and Savannah Medley scored inside to make it 19-9. The Lady Cats eventually expanded the lead to 15 at 26-11 going into halftime.

The Warriors started fast in third quarter with

Madison Dockter making a layup and Destany Crawford getting a put back to make it 26-15.

After Force scored on a layup, Crawford answered in the lane for Eminence to make it 28-17.

Henry County scored the next three points before Kenya Vargas scored on a put back to make it 32-19 going into the final period.

The Lady Cats outscored the Warriors 19-9 in the final period to pull away for the 23-point win.

Payton led the Cats with 14 points while Aleah Tuggle added 11 points and Medley contributed 10 points.

Crawford, Vargas and West led the Warriors with six points each while Emilie Ethington scored five.

EHS coach Zach Adair thought communication was the missing ingredient for the Warriors.

"We didn't talk on back screens and that was where they got a lot of their points," Adair said. "We also had times where we weren't matched up and they got easy baskets."

But Adair was pleased with the team's physical effort.

## EHS girls get first win over Fraize

BY GREG WOODS  
sports@hclocal.com

The Eminence Warriors girls' basketball team traveled to Cloverport Friday night to take on the Frederick Fraize High School Lady Aces.

The young Warriors, who have been showing steady improvement over the first few games of the season, got their first win, in a 44-21 blowout.

The Warriors jumped out to a 13-5 lead in the first period and never looked back in scoring the most points that they have scored in any game this season.

Eighth-grader Madison Dockter led the way with 11 points and freshman Tavi West added 10 points as eight different players scored in the game.

Destany Crawford, the team's only senior, added seven points and hit a 3-pointer. Eighth-grader Emilie Ethington also hit a 3-pointer and scored five points in the game.

"The biggest key to this game is that we came out ready to play after a long bus ride," coach Zach Adair said. "The girls played hard the whole way through."

"I thought they played really well. On defense

we were getting good ball pressure and on offense we were moving the ball and shooting well."

Adair complimented Dockter's play.

"Madison played very well on defense and on offense she did well driving to the basket."

Adair thought the score could have been more lopsided.

"We still have to be able to finish around the rim better," he said. "We missed a lot of open layups. But on a positive note, our defense continued to get better and
